RE: MICROSOFT RESTRICTIVE LICENSING

When I visited OPUS last week,

REDACTED BY ORDER of the
Court
Comes v. Microsoft

I have ~~told them~~ that this is not true, and am in the process of trying to prove this.

Any information you may have of OEMs licensing both MS & DR DOS would be very helpful. I have some details from Komol and Anil Singh, but further facts would help.

I have asked Adam Harris (OPUS's MD) to get a written confirmation of their policy - and if he receives it I am sure the FTC will be interested.

Any help would be much appreciated.

Regards.
